

Enterprise Resource Planning (ERP) System

For MARDO (NGO Organization)

Prepared by: **Prime Tech Solutions**

Date: February 2026

1. Executive Summary

Prime Tech Solutions proposes the development and implementation of a fully integrated ERP system tailored specifically for humanitarian and donor-funded organizations like MARDO.

The system will streamline HR, Finance, Logistics, Beneficiary Management, and Project Management processes while ensuring:

-  Donor compliance
-  Audit readiness
-  Transparency & accountability
-  Real-time reporting
-  Data security & role-based access
-  Scalability for future expansion

The ERP will be web-based, secure, cloud-hosted (AWS or preferred environment), and accessible per user role.

2. Proposed ERP Modules

MODULE 1: HUMANITARIAN HRM & PAYROLL SYSTEM

Designed specifically for NGOs & donor-funded projects

Core Features

1. Employee Management

- Employee registration & digital personnel file
- Contract management (short-term, long-term, project-based)
- Document upload (IDs, contracts, certificates)
- Position & department mapping
- Multi-location support

2. Employee Portal

- Secure login per employee
- View payslips
- Leave application
- Timesheet submission
- Self-assessment & appraisal

- Update emergency contacts

3. Attendance & Timesheets

- Biometric/manual attendance
- Project-based timesheets
- Donor-funded allocation tracking
- Overtime management
- Late/absence tracking

4. Project Allocation

- Allocate staff to specific projects
- Salary split across multiple donors
- % allocation per project
- Automated payroll distribution by donor

5. Leave Management

- Annual leave
- Sick leave
- Maternity/Paternity
- Emergency leave
- Leave balance tracking
- Approval workflows

6. Payroll System

- Multi-currency payroll
- Tax calculation
- Pension/social security
- Allowances (Hardship, Risk, Per Diem)
- Deductions & advances
- Donor cost center allocation
- Payslips generation (PDF)
- Bank transfer export file

7. Performance Management

- KPI-based evaluation

- Supervisor appraisal
- Self-assessment
- Probation tracking
- Contract renewal alerts

8. Employee Benefits & Safeguarding

- Dependent registration
- Insurance tracking
- Grievance management
- Safeguarding case reporting (confidential)
- Disciplinary records

9. HR Reports

- Staff by donor/project
- Salary cost per project
- Leave utilization
- Gender & diversity reports
- HR dashboard analytics

MODULE 2: FINANCE & DONOR COMPLIANCE SYSTEM

Built for humanitarian financial accountability

Core Features

1. General Ledger

- Multi-chart of accounts
- Multi-donor tracking
- Cost centers
- Budget lines per project

2. Budget Management

- Donor budget upload
- Budget vs Actual tracking
- Real-time burn rate
- Budget revision tracking

3. Accounts Payable

- Vendor registration
- Invoice processing
- Payment vouchers
- Approval workflows
- Withholding tax calculation

4. Accounts Receivable

- Grant tracking
- Installment tracking
- Donor receivable tracking

5. Cash & Bank Management

- Multi-bank accounts
- Bank reconciliation
- Cash advance management
- Field office cash control

6. Procurement-to-Payment Integration

- Linked with Logistics
- PO → GRN → Invoice → Payment flow

7. Fixed Assets

- Asset capitalization
- Depreciation
- Asset transfer
- Disposal tracking

8. Donor Compliance Reporting

- Donor-specific financial formats
- USAID, UN, EU template export
- Audit trail logs
- Full transaction history

9. Financial Reports

- Trial balance
- Income & expenditure

- Balance sheet
- Project financial report
- Donor financial statements
- Grant utilization report

MODULE 3: LOGISTICS & SUPPLY CHAIN (HUMANITARIAN)

Core Features

1. Procurement

- Procurement plan
- Request for quotation (RFQ)
- Bid analysis
- Supplier comparison
- Tender management

2. Supplier Management

- Supplier database
- Performance rating
- Compliance documents

3. Inventory & Warehouse

- Multi-warehouse support
- Batch & expiry tracking
- Stock in/out management
- Minimum stock alerts
- Damaged/expired tracking

4. Asset & Equipment Tracking

- Barcode tagging
- Field asset allocation
- Maintenance scheduling

5. Fleet Management

- Vehicle registry
- Fuel tracking
- Maintenance logs

- Driver assignment

6. Logistics Reports

- Stock reports
- Procurement status
- Supplier performance
- Inventory valuation

MODULE 4: BENEFICIARY & PROJECT MANAGEMENT SYSTEM

Designed for program departments

Core Features

1. Beneficiary Registration

- Individual & household registration
- Biometric option (optional)
- Unique ID generation
- Vulnerability scoring
- Geo-location tagging

2. Project Management

- Project lifecycle management
- Activity tracking
- Indicator tracking
- Results framework alignment

3. Sector-Specific Modules

- Nutrition tracking
- Health tracking
- FSL support tracking
- Protection case management
- Education support tracking

4. Distribution Management

- Cash transfer tracking
- Food distribution tracking
- NFI distribution

- Attendance sheets export

5. Monitoring & Evaluation

- Indicator dashboards
- Beneficiary tracking per donor
- Outcome measurement

6. Reporting

- Donor narrative support reports
- KPI dashboard
- Gender disaggregation
- Geographic reports

3. Technical Architecture

- Web-based (Cloud Hosted – AWS recommended)
- Role-based access control
- Data encryption (SSL)
- Daily automated backups
- Audit logs
- API integration capability
- SMS notification capability
- Multi-language support

4. Implementation Timeline

Phase	Duration
Requirements & System Design	4 Weeks
HRM Development	6 Weeks
Finance Development	8 Weeks
Logistics Development	6 Weeks
Beneficiary System Development	8 Weeks

Integration & Testing	4 Weeks
Training & Deployment	2 Weeks

Total Estimated Duration: 6 – 8 Months

5. Pricing Proposal (USD)

Module	Price (USD)
HRM & Payroll	\$18,000
Finance & Donor Compliance	\$27,000
Logistics & Supply Chain	\$15,000
Beneficiary & Project Management	\$20,000
Integration & System Administration	\$10,000
Total ERP Cost	\$90,000

Optional Add-ons

Add-on	Price
Biometric Integration	\$5,000
Mobile App (Android)	\$12,000
Advanced BI Dashboard	\$8,000
Annual Maintenance (After Year 1)	\$18,000/year

6. Payment Structure

- 30% Advance
- 30% After Core Module Completion
- 30% Before Deployment
- 10% After Go-Live

7. Post-Implementation Support

- 12 months free technical support
- Bug fixes included
- Staff training sessions
- System documentation

8. Why Prime Tech Solutions?

- Experience in humanitarian digital systems
- Donor-compliant system architecture
- Secure & scalable cloud infrastructure
- Dedicated technical support team
- Custom-built, not generic ERP
